ABOUT ME

I am a passionate MERN stack developer with experience in building dynamic and scalable web applications. Proficient in MongoDB, Express.js, React.js, and Node.js, I specialize in developing full-stack solutions with seamless frontend and backend integration. I have hands-on experience in RESTful API development, authentication, database management, and real-time features. With a strong foundation in JavaScript, responsive UI design, and deployment strategies, I aim to create high-performance, user-friendly applications. Always eager to learn and explore new technologies, I am committed to delivering efficient and innovative web solutions.
